

Gator Hunter, Brian Wood

Capstone Building employee, Brian Wood, who is an assistant superintendent at the Tuxedo Court project in Ensley, Alabama, recently participated in Alabama's Annual Alligator Quota Hunt.

He applied for the raffle and was drawn to participate. This is the second time he has been chosen to participate in this hunt. In his first Alabama hunt he took an 8 ft gator. This time around Brian and his father hauled in a gator measuring 10 feet 8 inches, weighing 375 pounds.

The gator was caught in the Mobile Delta on August 22, 2009. They caught the gator at 1 a.m. and it took them almost two hours to land the gator in the boat.

This was Brian's sixth time catching a gator. He hopes to be able to participate again next year.
